Breast Cancer Awareness Webinar: Early Detection Saves Lives

Louisiana is the third highest state leading the nation in breast cancer deaths. Also, Black women are diagnosed more frequently and more likely to die from breast cancer in Louisiana than nationally. This signifies the daunting work ahead in cancer prevention and early detection through routine screenings. Please join us for a conversation on improving breast cancer stats in our state!

Dr. Chancellor Donald | Gerrelda Davis | Dr. Shawn McKinney | Cynthia Rabalais

Wednesday, October 27th 4-5:15PM CST
